

Ved anvendelse af
13x13 cm stolper kan
hegnet vinkles op til
45 grader

The diagram illustrates a railing system composed of three segments connected by square brackets. The first segment is vertical, the second is angled at 45 degrees, and the third is horizontal. Each segment is supported by a 13x13 cm post. The posts are shown as square brackets with a central slot for the railing segment. The railing segments are represented by thin lines. The text is centered in the middle of the diagram.
